Thinking of allocating £1/2 million to each.

LPN suggested allocating £500000 for domiciliaries in Derbyshire County.

Trying to get in early and surprise NCB.

NCB might pick up a little.

Derby county and city currently have 7 people only 1 dental.

Will be something in local area teams, but only 1 or 2 covering all geographical, and medical/dental areas.

PALS people gone.

DM thinks local resolution, even without PALS might well work satisfactorily for GDP's and patients.

b) Trent Liaison

Lots of talk about reorganisation and combining eg. Lincoln with Leicester in Newark

Northants further south

Derbyshire and Notts possible.

Most areas have non-recurrent UDA's
